Elementary News:

Literacy:

Kindergarten: There is a spring packet in your child's backpack. Students are reviewing letters and practicing their high frequency words. Hope you have a great vacation!

Grade 1 : In first grade we are reading longer books with much more text. I recommend taking turns reading with your child-each reading a page or two at a time. Play around with expression, using character voices and have fun!

Grades 2, 3 and 4: We continue to work hard on deeper comprehension. Please ask questions as you are reading with your child. Some questions to ask: Who are the main characters? Where is the setting?, What is the problem?, How is the problem solved?, etc. Have a wonderful and restful break!

Math:

Kindergarten: We continue to work on number ID and proper formation of numbers 0-20. We also are working on simple addition (part, part, whole), as well as, shapes, colors and patterns. Thank you for your continued support at home.

First Graders: Students have been working on learning In and Out boxes, telling time to the quarter hour, money ID, and mad minutes fact sheets. Please keep practicing your math facts at home.

Second Graders: We are reviewing time, money, and multi-digit addition and subtraction. Keep practicing at home each night!

Third and fourth graders: We are reviewing basic concepts of money, time, multiplication and division. Look for vacation packets coming home that will earn students two stickers when we come back!

Middle School News:

April 13th, 2018

Math: Mrs. Greenlaw

Grade 5: The fifth grade students have finished up their decimal unit. They have been working very hard! It is the end of the quarter, so whatever you see for a grade at this point, is the grade that they will receive in the 3rd quarter. Please encourage your child to continue with practicing math facts, as well as continuing to add/subtract numbers that involve carrying/borrowing. Thank you for your support!! Happy April vacation!

Grade 6: The sixth graders are completing their Order of Operations unit, and moving on to geometry. Students are working incredibly hard, and are doing a great job! The third quarter is officially closed, so whatever your child's grade is currently is the final grade for the quarter. Thank you for your support! Happy April Vacation!

Grade 7: The seventh grade students are finishing up area of 3D shapes this week. This has involved completing a formative and summative assessment. Students are working hard! The third quarter has officially closed as of today. Hard to believe we are moving into the last quarter of seventh grade! Have a great vacation week!

Grade 8: The eighth graders will be finishing up their geometry unit AFTER vacation week. Students are working very, very hard and doing amazing work! It is hard to believe that they have one more quarter before high school!....they are ready! Way to go, 8th graders! Enjoy your April vacation!
